2.22 Fitness for Work

YMCA Geelong is committed to providing a safe and healthy place of work for its employees and others in the workplace. This commitment extends to our obligation as an employer under the Occupation Health and Safety Act 2004, Regulations 2007 and 2017.

YMCA and its employees have a responsibility for the provision of a safe, healthy, cost effective and productive workplace. This means that each individual has a responsibility to maintain personal fitness for work.

YMCA employees will:

- Be required to attend work in a good physical and mental condition so duties are performed in a safe, efficient and productive manner.
- Employees should be aware that many factors may affect fitness for work, and these can often interact with each other. These may include:
- General health and physical and mental fitness
- Secondary employment or volunteer activities
- Recreational activities and sport
- Medications
- Insufficient sleep / fatigue
- Excessive work hours / demands
- Injury or illness (work or non-work related)
- Consumption of alcohol or other drugs
- Personal factors (e.g. psychological, psychiatric issues, family issues or illnesses)

2.22.1 ASSESSMENT OF FITNESS FOR WORK

An employee /volunteer who attends work in an unfit manner is operating outside YMCA policy and may be subject to counseling and / or disciplinary action, depending on the degree of awareness and the severity of the risk to safety or dismissal.

Immediate supervisors are responsible for initial assessment of an employee's fitness for work. If a supervisor becomes concerned about an employee's ability to safely perform their work, either through direct supervision or report, they must take prompt action. If an employee presents to work and the manager deems that the employee is not fit to be at work then the manager should deal with this immediately after they become aware of the issue. The matter should be dealt with sensitively and as a matter of safety rather than discipline. The employee should be stood down from duties and a private discussion should take place to determine the cause of the problem. The formality of this meeting will be dependent on the individual circumstances i.e. if the illness or injury is obvious then a simple direction to take a break or go home on sick leave will suffice but if the manager has reason to believe that the employee is unfit due to reasons which breach policy (e.g. intoxication) then a disciplinary investigation should be initiated.

YMCA reserves the right to direct an employee, who it believes is unable to safely perform their duties due to some form of impairment attend a medical practitioner prior to continuation of duties, stand the employ down from duties or dismiss from duties.

There may be some warning signs including:

- Lethargy
- Obvious struggle to complete tasks
- Out of character behaviour e.g. irritability / aggression, vagueness

- Apparent lack of attention or concentration
- Smell of alcohol / drugs on an employee
- Obvious illness or injury (e.g. flu symptoms, limping)

If an employee attends work when they are unwell or fatigued, generally they do so because they are conscientious not because they are trying to put anyone else at risk. The supervisor needs to make a judgement call as to the correct response in the individual circumstances. Drug Testing may be required.

Appropriate actions may include:

- Having the employee take a short break
- Sending (or driving) the employee home on approved sick leave
- Driving the employee to a doctor or to the hospital (if they are not fit to drive themselves)
- Calling an ambulance if the severity of their condition warrants this

2.22.2 Incident Reporting and Response

The investigation of workplace incidents or accidents will include consideration of fitness for work issues.

YMCA management will provide a Fit for Work Form to an employee or volunteer who is deemed “Unfit for Work” and ensure it is completed by a medical practitioner before returning to a rostered shift.

2.22.3 Medical/Illness Disclosure & Pre-Existing Injury/Illness Information

YMCA employees have a duty to inform their supervisors and the People and Culture Director in writing at any stage during their employment or service with the YMCA that there is an injury, onset of a medical condition, prescription of a drug or illness that impacts on their ability to complete all duties and tasks. A new Medical Disclosure Form and Pre-existing Illness form must be completed.

YMCA has a Duty of Care, once a disclose of a non-work related illness, medical condition or injury of any employee to ensure that the workplace does not contribute to the illness, condition or injury getting worse. A workplace management plan must be developed which may include;

- Modifications to tasks,
- Restricted duties,
- Reduced hours of work,
- Rotation of duties,
- Investigation into the systems of work in the workplace.

2.23 Work related injury or illness

All work related injury or illness is to be dealt with under YMCA’s Workers Compensation and Rehabilitation Procedures.

2.24 Non- Work related injury or illness

A non-work related injury or illness refers to an injury or illness (includes physical, mental or psychological conditions) which does not arise out of the course of employment or that has been deemed not to be compensable under Workers Rehabilitation and Compensation Act.

- i. Medical clearance to return to work- If an employee experiences a serious non-work related injury or illness which may affect their ability to undertake the full duties of their position then a medical clearance from a doctor will be required before that employee will be permitted to return to work. If an employee presents to work unable to carry out the duties of their position or where the manager believes that there is a risk to them or another employee, they will be stood down until a medical assessment can be carried out – at the employees cost.
- ii. Provision of Alternative Duties is under no legal obligation to provide alternative duties to an employee returning to work following a non-work related injury or illness. In general, if an employee is not fit to return to the full duties of their position then they must remain on appropriate leave until such time as they are fit to return to their full duties. In cases where an employee has no available leave balance attempts will be made to provide alternative duties. For this to occur there needs to be enough work to keep that employee productively occupied for the time that they are at work.

2.25 Chronic / long term fitness for work concerns

Where it is identified that an employee is not meeting the fitness requirements to carry out the inherent requirements of their position a Fitness for Work (FFW) Management Plan will be developed. This plan will be developed by the supervisor in consultation with the employee, the OH&S Officer and the People and Culture Director. Additionally, external medical / functional advice may be sought in specific circumstances. This plan is intended to support the employee to meet the requirements of their position over an agreed time period or to assess reasonable adjustment options where an employee has an identified disability. The plan will include an explanation of the condition affecting fitness for work, the effects on the employee’s ability to perform duties and what steps are to be put in place to remedy or manage the situation. This plan will be maintained as a confidential employee medical record with only authorised staff having access to this information.
